Status **Info**

Site Health Info

This page can show you every detail about the configuration of your WordPress website. For any improvements that could be made, see the [Site Health Status](#) page.

If you want to export a handy list of all the information on this page, you can use the button below to copy it to the clipboard. You can then paste it in a text file and save it to your device, or paste it in an email exchange with a support engineer or theme/plugin developer for example.
